

I oppose SB184 on two grounds: (1) the CT Constitution requires "sickness" as the threshold for receiving an absentee ballot. "Sickness" has always been interpreted to mean a physical ailment that prohibited in-person voting. (2) Expanding the definition of "sickness" in order to mass mail absentee ballots to voter rolls will inevitably include hundreds of ineligible voters, which then subjects our elections to fraudulent submissions.

I urge you to oppose SB184 and maintain voting integrity in the state. Doing otherwise is an abuse of power and a violation of our democracy.
